

Premium Support Service Level Targets

Last Updated: February 23, 2026

At Pendo, we have a maniacal focus on our customers. Our Premium Support offering is designed for customers who require enhanced responsiveness and additional flexibility. This document outlines how we aim to respond to and resolve service-related issues under Premium Support, including the criteria we use to assess severity, determine impact, and prioritize action.

Customers reporting a SEV 0 or SEV 1 issue should select the designated “Urgent” severity option when submitting the support request so that the applicable Service Level Targets may be applied. Severity level designations shall be within Pendo’s sole discretion and Pendo may, at any time, update severity level definitions, even if such update occurs after an initial assessment.

Customers may access Pendo Technical Support through the Pendo Resource Center within the Pendo application. To submit a support request or review existing tickets, Customers must log in to Pendo, open the Resource Center via the Pendo badge, and select **Support** to submit a request.

If a Customer is unable to access their Pendo account, they may submit a support request through Pendo’s designated support request form at <https://support.pendo.io/hc/requests/new>.

While Pendo strives to respond to and resolve issues in a timely manner, certain unforeseen circumstances may affect response or resolution times. Unless expressly stated otherwise in an applicable Order Form, the timeframes described in this document are targets and not guaranteed commitments.
